NIVASH MUKIL

+91 8754972234| nivash1912004@gmail.com | Github | Linkedin

Aspiring Data Analyst seeking an entry-level position to leverage expertise in data analysis using Python, SQL and Django. Eager to apply my analytical skills and grow professionally in a dynamic environment.

SKILLS

- **Languages :** Python, SQL, Data Analysis Expression(DAX), ETL Process, SQL Database Connectivity
- **Frameworks :** Django,Fast API, REST API
- **Developer Tools :** MySQL, Oracle SQL, Excel, Power BI, Visual Studio, PyCharm,
- **Data Analysis:** Excel , Power BI, Pandas, NumPy, Matplotlib, Seaborn

PROJECTS

Titanic Survival Analysis | Pandas, Seaborn, Matplotlib **Nov 2025**

- Performed end-to-end **Exploratory Data Analysis(EDA)** on the Titanic dataset with **13000+ records** using Python, Pandas, Seaborn, and Matplotlib, including statistical exploration to identify survival patterns.
- **Executed data pre-processing** and feature engineering by handling missing values, creating derived features (e.g., Age groups, Family size) to improve dataset quality.
- Carried out **correlation analysis** and **group-based aggregations** to identifykey survival drivers.

Attrition Analysis | Pandas, Seaborn, Matplotlib **Dec 2025**

- Conducted **end-to-end**, HR attrition analysis on **49000+ records** using Python (Pandas, NumPy), ensuring data quality through cleaning, validation, and pre-processing.
- Implemented **data transformation** and **feature engineering**, including date handling, experience calculation, and structured dataset preparation for analysis.
- Completed **Exploratory Data Analysis (EDA)** with Seaborn and Matplotlib to analyse attrition trends across **Age, Gender, Job Role and Experience,** supported by correlation analysis.
- Delivered actionable, data-driven insights on attrition drivers and workforce patterns to support **HR analytics and business decision-making.**

EDUCATION

Madurai Kamaraj University College **July 2021 - May 2024**
Bachelor of Computer Science; CGPA:6.3

Balamandiram Higher Secondary School **july 2019 – june 2021**
Computer Science; Scored:**81%**

TRAINING /COURSEWORK

Data Analysis with Python Full Stack Course **July 2025- Present**
Pyspiders ,Bangalore

- Learning data analysis, cleaning, and visualization using Pandas, NumPy, and Matplotlib.
- Studying statistical concepts, hypothesis testing, and exploratory data analysis (EDA).
- Implementingmachinelearningmodelsincludingregression,classification,andclustering using Scikit-learn.

ADDITIONAL INFORMATION

- **Soft Skills:** Time management, Teamwork, Leadership, Strong Analytical skills, Communication skills, Problem Solving
- **Areas of Interest:** Data Analyst, Python Developer, SQL Server, Database Management
- **Language's:** English, Tamil
